There are nineteen men announced as Republican candidates for the nomination for Jailer in Lewis county.

President—H. C. Barkley.  
Vice-President—J. James Wood.

Secretary—G. W. Blitterman.

Treasurer—F. F. Franklin.

Superintendent—H. H. Cox.

Of course the death of Mr. Barkley will necessitate an election to fill the vacancy.

## ANOTHER FATALITY.

The C. and O. Flyer ran over a man at Augusta yesterday.

He is dead.

It does look as though Engineer Clements was pursued by ill luck.

He has been a passenger engine driver for fifteen years, and never had a serious mishap until lately.

But within the past few months he has had the misfortune to run down and kill no less than seven persons; and it cannot be said, in a single instance, that the occurrence was due to any neglect on his part.

The last victim was William Hall, who was run down and killed by No. 3 at Augusta yesterday afternoon.

Beyond the bare fact of his being killed no particulars are known.

**DID YOU?**  
Before he died he asked me  
I'd write his epitaph.  
I said I would "with pleasure."  
And we parted with a laugh.  
Then I went to the bucket,  
'Cause a girl had thrown him high,  
And I wrote: "Here lies a fellow  
Fool enough to shoot and die." —Londonderry Times.

## WE'RE FOR AMERICA/AMERICANS!

JUDGE LAWRENCE of Ohio says that the woodworkers of the country had lost \$178,793,121 because of inadequate Protection since 1893. He asserts that cloaks worn by fashionable women were made from European and Asiatic wool, and says they are laden with leprosy.

THE Newark (N. J.) Advertiser says a Boston lawyer put in a bill of \$25,000 for four months of personal services as receiver of an insolvent corporation. But he is not alone and singular in the idea that the bulk of the property should go to him. The same idea is apparent in the legal charges of lawyers elsewhere than in Boston. We have some of these lawyers in New Jersey. And such fellows have been known to exist even in some parts of Kentucky.

A STATISTICAL writer has signed on the cause of poverty of 4,790 people and has found that 38.2 per cent. was due to old age, 27.3 per cent. to physical infirmity and 5.1 per cent. to accident or sickness. This leaves 29.40 per cent. to be accounted for. The chances are that the figure was developed in his investigation, that about 29 per cent. will cover the causes he named and the other 71 percent. will be found to have been more or less improvident, will be found to have spent all of their income and a little more every year. The person who habitually spends every week or month a little more than he receives is bound sooner or later to know something of the pinchings of poverty. The comforts of old age are insured only by the producer living a few dollars inside his monthly income.

## HOLT IN THE CABINET.

Distinguished Kentucky Jurist Mentioned For Attorney General.

WOULD PLEASE MAYSVILLE FRIENDS.

There is some interesting political gossip from Frankfort to the effect that Kentucky may after all get a Cabinet place with the coming Administration.

Frankfort usually can stir up considerable political interest, but this interest in the prospect of the old Commonwealth getting a representative in the McKinley Cabinet is not from the politics alone, but comes from a source which makes it look very much like it is not, after all, well founded at least.

It has been known for some time that the friends of the incoming Administration want to settle the Senatorial muddle in Kentucky and that it is the belief of the representatives of the man from Canada that a Senator should be elected, and that when elected he would be seated.

But who will be the Kentucky Cabinet Minister? is asked. Who is that distinguished and learned Kentuckian who was a schoolmate of the President-elect, and who, since his former classmate has gone to Congress and made himself famous, has himself served six years on the Bench of the Kentucky Court of Appeals and is recognized as one of the strongest lawyers in the South?

It is Judge William H. Holt, and the Cabinet place which his friends say is his is for the Attorney Generalship, and it is asserted that he is too ignorant of this probability of his serving in the next Cabinet, but as yet he has not been induced, when addressed on the subject, to move more smile and say nothing.

Judge Holt is one of the ablest men in the South, and has served with credit to his state and distinction to himself on the Bench of the Court of Appeals, and it is not unlikely that the McKinley Administration will recognize his abilities and make him a Cabinet Minister. He is a strong man for the place of Attorney General, and would be a creditable representative of the Bluegrass state everywhere he is sent.

It is known among his friends that if Judge Holt were asked to take a place in the new Cabinet he would prefer the Attorney Generalship portfolio, for he has a love for the law and has made its study and practice a life business and a life's pleasure.

His decisions while on the Kentucky Court of Appeals' Bench are among the strongest and most learned ever written by any Judge on that Bench.

Judge Holt has many personal as well as political friends in Maysville who would themselves feel honored by his selection for a place in President McKinley's Cabinet.

Holt, and the Cabinet place which his friends say is his is for the Attorney Generalship, and it is asserted that he is too ignorant of this probability of his serving in the next Cabinet, but as yet he has not been induced, when addressed on the subject, to move more smile and say nothing.

On the summit of Ben Lomond are the smallest trees in Great Britain. They are dwarf willows and when mature only about two inches in height.

The Council at West Union has increased the fine under the Prohibition ordinance from \$50 to \$100, and makes physicians liable to \$200 fine for issuing prescriptions not in good faith.

Colin P. Huntington some time ago built a palatial residence on Fifth Avenue, New York, worth over \$20,000,000. But his family has never moved into it, and account of a superstition of Mr. Huntington that its occupancy would be speedily followed by his death.

The progressive ladies of Westfield, Ind., issued a "Woman's Edition" of The Westfield News, bearing date of April 2d, 1896. The paper is filled with matter of interest to women, and we action the following from a correspondent, which the editors printed, realizing that it treats upon a matter of vital importance to their sex: "The best remedy for croup, colds and bronchitis that I have been able to find is Chamberlain's Cough Remedy. For family use it has no equal. I gladly give it to my children, and am sure that they will be greatly benefited by it."
